Cityspace iPlus TV

Cityspace, those Urban Digital Network folks have been really busy in the UK. Their latest newsletter which you can view [here](#) is full of news.

Their iPlus TV deal with Warwickshire County Council looked interesting...

As part of an extensive refurbishment of its Shire Hall, Warwickshire County Council is installing iPlus TV to broadcast useful information to people in the newly developed 'Warwickshire Direct' one stop shop waiting area.

Three 46" broadcast screens will provide state-of-the art visuals, integrated with the Council's computer network to display the one stop shop queuing system whilst showing news bulletins of the Council's activities and important announcements.
