## Cityspace selected for Government Framework Agreement

Cityspace has been selected as one of the Government-accredited telecoms suppliers within the new Telecoms Networks Framework Agreement being awarded by OGCBuying.solutions, an executive agency of the Office of Government Commerce.

Cityspace is one of 37 telecom and network providers across 12 categories to have been awarded a framework agreement aimed at reducing costs and increasing efficiencies in telecom procurement across central and local public sector bodies. The company is unique among the 11 providers of wireless broadband in its deployment of wireless solutions for both public access and for large scale transport network infrastructures.
